# UPCOMING

- The Spark Magazine won the Swazi Fest Writer's awards in eSwatini
- The third edition is underway. We paused because of the political situation in eSwatini
- We have new members joined
- The Magazine has teamed up to start an art project to promote Swazi artists

## Appreciation

The Spark Magazine would not have done anything without the strong team and the responsiveness of the contributors that made the magazine come into fruition. There is great amazement for the great talent existing in the country. Initially, the spark was only for emaSwati but other people have joined to the journey with high and beautiful landscapes, and some dark and despondent valleys. We haven't changed the country no, but something has been ignited and it is ready to burn. Because we're getting started...!
